**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Kazuya et al (JP 05027430).

Compound (9) disclosed on page 5 of the reference, anticipates the instant claims when q13 to q16 are 0, in instant formula (2).

***Allowable Subject Matter***

The following is a statement of reasons for the indication of allowable subject matter: claims 1-11 and 20-22 are drawn to a calixarene compound that is not disclosed or suggested in the prior art, and to a composition comprising said compound. Claims 16-19 are drawn to a method for making a calixarene compound that is not taught or suggested in the prior art; specifically, the prior art fails to teach or suggest reaction of a diphenol compound with a dialdehyde as required in said claims.
